BIO

Jean's love for cinematography blossomed early in his life, starting at the age of 14 when he began taking photographs in his parents' garage. Driven by a burning passion, his dream of becoming a director of photography was born.

After 17 years as a camera assistant, beginning in 1996 as a camera loader and gradually rising through the ranks to become a camera operator, Jean had the opportunity to work alongside and learn from some of the most respected names in the industry.

In 2014, he embarked on his journey as a director of photography, exploring various genres from documentaries to short films and B-movies. His first mainstream television series came in 2016, and since then, he has continued to take on new projects.

Respect, passion, commitment, and enjoyment are the core values that guide Jean's work.
